This Statistical Content Analysis¹ starts with the founding of AMECEA in 1961 and continues to reading the “Signs of the Times’ in December 2025: the 2025-2028 Synodal Process, Pope Leo XIV and Artificial Intelligence (AI).

The results: 635 topics² in nine categories/themes³ alphabetically as follows:

Communities (155)

SCCs: 6,755 matches or hits.

Communities: 2,023 matches or hits.

Synodal: 1,643 matches or hits.

¹ This Ebook combines many literary styles (alphabetically): analysis, autobiography, biography, evaluation, history, memoir, pastoral reflection, story-telling and theological reflection.

² We stopped at 635 topics that gives a sufficient sample to provide a professional evaluation. The “Search” does not distinguish certain words. For example, “Latin” can refer to the language or a part of a geographical area.

³ The topics and categories are chosen based on the local African context. For example, the 14 *Bible*-related topics are placed under “Communities” rather than “Theology/Spirituality.” The *Bible* is essential in the SCCs Model of Church in Eastern Africa.
